

Screw loose?

We have the proper torque!

Now available for cars, trucks and trailers

The day-to-day running of a workshop is difficult to manage in a cost-effective way without information about a wide variety of different vehicles. The AVL DiTEST information system provides state-of-the-art assistance, and since it is available online it is always up-to-date and accessible seven days a week, 24 hours a day.

The content is drafted by AVL DiTEST automotive experts and, of course, complies with vehicle manufacturers' requirements. AVL DiTEST XIS Pro provides support with all tasks from diagnosis through to maintenance and repair. Make your workshop processes more efficient and professional – your customers will thank you for it!
